NOTICE OF ALLOWABILITY

STATUS OF THE CLAIMS

This action is in response to papers filed 9 October 2006 in which claims 10-11, 13-15 were amended, claims 1-9 and 12 were canceled and claims 19-26 were added. All of the amendments have been thoroughly reviewed and entered. This action is further in response to amendments discussed and agreed upon during an interview between the examiner and Mr. Schumann on 18 December 2006. Examiner's Amendments are detailed below.

The previous rejections in the Office Action dated 8 June 2006 are withdrawn in view of the amendments. The amendments overcome the prior art and place the pending claims in condition for allowance.

Restriction Withdrawn

Claims 10-11, 13-15 and 19-26 directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 16-18, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 3 March 2006 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are

no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Authorization for this examiner's amendment was given in a telephone interview with James Schumann on 18 December 2006.

The application has been amended as follows:

Claim 13, line 2, replace "means" with --- a laser scanner --- .

Claim 25, line 2, replace "means" with --- a laser scanner --- .

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art does not teach or reasonably suggest a biochip system having a mirror surface, dielectric layers and binding domains arranged so as to produce destructive interference as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the
